

# Brake Service Solutions

**Problem:** Cost effectively bleeding brakes.

- “Pedal” bleeding requires two technicians
- Pressure bleeders require complicated sets of reservoir adapters
- Pressure bleeders with complete adapter sets are fairly expensive

**Solution: Vacuum Brake Bleeder**

**Part No. 940932**

- Price permits purchase of two or three units for less than a complete pressure bleeder set with adapters so that a high volume shop can become more efficient
- Easy to use
- Allows one man bleeding at a cost effective price
- No special reservoir adapters required
- Universal rubber fitting for bleeder screws
- 18.5 fl. oz. (500ml) container
- Overflow check valve
- Convenient storage hook
- Operates on shop air
- Quick release locking trigger
